

Macleay Eco Explorers

Enviro-Stories Program

The **Macleay Eco Explorers Enviro-Stories Program** provides students with the opportunity to learn about the environment, climate change and how to manage and protect the Macleay Valley region's biodiversity and natural resources.

This program gives students the opportunity to become one of our Macleay Eco Explorers as they research and learn about local issues. Students will use this knowledge to create a storybook to help other students learn about the magnificent Macleay Valley.

The 2026 topic is "Small Steps, Big Changes".

We're looking for stories about the small, everyday actions we can all do to look after the environment and take care of the Macleay Valley.

What is Enviro-Stories?

Enviro-Stories involves students learning about their local area and passing this knowledge on to others through storytelling.

It gives kids a voice... a voice for their creativity, a voice for their concerns about the world around them, a voice for their community.

Enviro-Stories is funded by sponsors who enable regional projects to be FREE for schools. Macleay Eco Explorers program is funded by Kempsey Shire Council.
